

**Skyflowers**

# Welcome

'**Skyflowers**' is a name given to a plants in the Bromeliad family. They are an amazing group of plants that typically grow high in the tree tops, on cliffs & other impossible places like power lines. They can live anywhere because they collect water from moisture parties in the surrounding air, allowing them to gather nutrients through their leaves as well as their roots.

Bromeliads live 'ascended lifestyles' and remind us to do the same. They represent the spiritual, higher side of our human nature & point to our true identity - the 'Higher Self'. Every flower remedy made from tropical Bromeliads is a reminder of this natural fact.

# History

While the Skyflowers Project began in 1997, it really all started when I was a kid. I was extremely shy and would spend hours hiding in the plants. I became interested in them and started growing plants as a hobby. By age 13, I grew 117 different herbs & medicinals - I was a little obsessed. After high school, I began my career in horticulture ( 1989 ) and progressed from there into plant medicine in 1997. This was when I had the idea to 'make a set of flower remedies' to use in my clinic. Little did I release that I would start a company, manufacture flower remedies and sell them around the world under the brand name 'Skyflowers'.

# Research

In 2003, I made a big discovery. I realized that the botanical classification & scientific hierarchy of plant families was important to plant medicine. Since then I have been busily decoding 'the tree of life' and discovering the general properties of the subfamilies and genera of the Bromeliad family. The 3 sub-families of Bromeliads translate to flower remedies for the mental body, emotional body and physical body, respectively. This important insight paves the way for the precise, 'surgical' use of the Skyflowers as well as providing a template for the translation of other plant families, food plants and medicinal plants. It's a big deal.

# Information

The Skyflowers Project sets the standard for botanical research. Our mission is to produce a body of work that the current generation can benefit from and future generations can build upon. Information quality is key to the study, practice and governance of Clinical Flower Therapy. Given the importance of 'getting it right', we make every effort to produce accurate information through a process of continuous refinement, revision and clarification. We are meticulous with our information standards. This attention-to-detail paves the way for surgical precision and professional results in Clinical Flower Therapy.

# The Flowers

While you may have used flower remedies before, using the Skyflowers will take a little getting used to because of the depth of information you have access to. The Skyflowers goes well beyond 'emotional issues' and helps to build a detailed picture of the core issue. As well as where it is located - in the mental, emotional or physical body. With a little practice & study of the different plant groups, you will be able to design combination remedies that are profound. In the following pages you will 'meet' the different flower groups ( genera ) that you will be working with. Notice the flower groups you are drawn to.

# Abromitiella

**Sub-family 3** - Pitcairnioideae, Primitive Grasses, (S)low Vibration, Physical Body/Reality..

**Abromiteilla** are low-growing, spiky plants that follow the contour of the landscape. Symbolically, this translates to being in tune and attuned to the present moment. As a result, Carpet Bromeliads are perfect for balancing the subtle systems of the body such as hormones. Carpet Bromeliads bring moderation and deal with desire - a tricky emotion because it is limitless in nature. Desire is at the root of 'insatiable conditions' such as drug & alcohol or porn addiction, food cravings and other tendencies. Desire is an 'open door' & paves the way for toxicity in the body.

**General Properties ( Core Issue )**

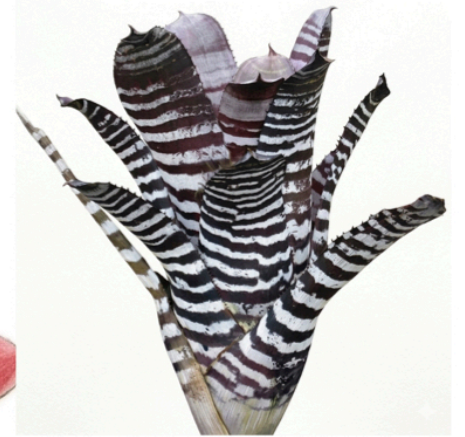

+ Self-Control. Moderation.

# Aechmea

**Sub-family 2** - Bromelioideae, Tank Bromeliads, Mid-Vibration, Emotional Body.

**Aechmea's** are a robust genus of Bromeliads that has approx. 250 species. Known as 'the Spear Flowers' due to the shape of their flower bract, Aechmea's produce a wide range of vibrant colors - particularly reds and vivid oranges. Symbolically, Aechmea's promote '**bold action**' & help to express the Higher Self as it streams down through the mental body into the emotional body for us to act upon. Aechmea's deal with fear, inaction, suppression, repression & other forms of unnatural or willful withholding. Aechmea pair well with the Affirmation flowers and Perception flowers in combinations.

**General Properties ( Core Issue )**

- + Action, Freedom, Soul Expression.
- Fear, Inaction, Suppressed Emotion.

**Ananus** ( *An-nan-uss* ) are commonly known as the Pineapple. Pineapples have an interesting history. Collected by Christopher Columbus from South America, Pineapples were hired out 'for a kings ransom' at dinner parties as a symbol of wealth & welcome. Medicinally, Pineapple's are well known as a muscle relaxant, however flower remedies made from Pineapples go beyond the physical. The Skyflowers use 5 species of Pineapple, each representing one of the 5 stages of stress. You can use them to measure stress levels and can be used in any combination as they are a 'universal medicine'.

**General Properties ( Core Issue )**

+ Relaxed, Light Hearted, Fun.

## Billbergia

**Sub-family 2** - Bromelioideae, Tank Bromeliads, Mid-Vibration, Emotional Body.

**Billbergia** are a genus of tubular, upright plants that has approx. 60 species distributed through out central & South America. Their general properties are depicted by their tall habit and pendulous flowers. Billbergia's are **affirmation flowers**. They gently remind us of our spiritual nature and the pendulous flowers suggest we are 'Heavenly, spiritual beings', by default. Billbergia's help to plunge our roots deeper than the ego / surface mind and tap into our deeper spirit. They dispel the faulty self image we live by and help us rise above the .limitations we place on ourselves.

### **General Properties ( Core Issue )**

+ Affirmation of Life / Spirit, Higher Self.

- Identity Crisis, Negative Affirmation, Limitations.

# Cryptanthus

**Sub-family 2** - Bromelioideae, Tank Bromeliads, Mid-Vibration, Emotional Body.

**Cryptanthus** are a genus of star-shaped, terrestrial bromeliads that grow on the leafy forest floor. The name Cryptanthus means 'hidden flower' based on the fact the leaves are highly camouflaged by leaf litter and are hard to spot. Symbolically, Cryptanthus 'reveal what is hidden', buried I& forgotten in the subconscious mind. Cryptanthus highlight the role you play in events, dispel blame, projection & transferring power or authority onto external sources. Cryptanthus are very effective at showing you the exact role you have played to bring about the problems in your life.

### General Properties ( Core Issue )

- + Role Play, Ownership, Reflection..
- Blame, Projection, Transference.

**Sub-family 3** - Pitcairnioideae, Primitive Grasses, (S)low Vibration, Physical Body/Reality..

**Dyckia** ( *die-kee-ahh* ) are a genus of star-shaped, thorny Bromeliads that have a strong root system. Forming dense clusters of plants, Dyckia's provide a strong, protective shield for ants and insect colonies. Symbolically, the deep roots and protective shield provides a sense of security that you may not be used to. Dyckia's are cathartics / purgatives and are for professionals only as they dispel, rather quickly, anything that is 'insecure' within active consciousness. They are perfect during times of upheaval, civil unrest or life crisis such as marriage divorce. Use sparingly and monitor a course of drops closely..

**General Properties ( Core Issue )**

- + Expel, Purge, Rebirth, Reboot the Bio-Computer.
- Life Crisis. Catharsis, Dark Night of the Soul.

# Hechtia

**Sub-family 3** - Pitcairnioideae, Primitive Grasses, (S)low Vibration, Physical Body/Reality..

**Hechtia** ( *hech-tee-ah* ) are are a razor-sharp group of plants that inhabit harsh, rocky environments, Hechtia's deal with threats to survival and are closely linked with the 'fight/flight' and primitive, survival responses of the back-brain. Hechtia's provide a protective shield As they begin the process of disarming hostile, angry reactions to perceived threats. They sooth the emotions as well as smooth out unrefined behaviors that are primitive or childlike. The intense red color is a warning to the practitioner of 'intense emotion' that should be monitored during the release / disarming process.

# Navia

**Sub-family 3** - Pitcairnioideae, Primitive Grasses, (S)low Vibration, Physical Body/Reality..

**Navia** (are a genus of brightly colored, neon Bromeliads, home to the Amazon jungle. Their hypnotic colors & patterns are stunning to behold, so it should not be a surprise that they are for cognitive impairment. Navia are used for 'associative disorders' and deep, psychological breaks from reality. Navia's indicate when an individual has willfully split from reality, sometimes indicating the presence of lies or in the extreme, as a survival response to extreme trauma. This flower group is a surgical tool and the later flowers in the series are for professionals only.

**General Properties ( Core Issue )**

+ Sane.

- Divergence, Cognitive Dissonance.

**Neoregelia**

## Perception, Perspective & Beliefs

Our emotions are governed by our perception of our experiences. For example, if I am 3 years old & I drop my ice cream cone, I will cry hysterically like the world has come to an end. However, if I drop my ice cream cone, the very same action, when I am an adult, my emotional response is less severe. It's disappointing & a nuisance only. Returning to a neutral emotional state is a lot quicker because, as an adult, I have more information and mental references than a child does. A child does not know you can go to the fridge and replace the ice cream cone, hence the sharp emotional reaction. Neoregelia's help to update old perceptions, perspectives and belief systems ( programming ) and so, dissolve emotion. They remove filters and biases from the way we see the world. Neoregelia's have a central water tank, resembling a human eye. Can you see the eye looking back at you?

# Neoregelia

**Sub-family 2** - Bromelioideae, Tank Bromeliads, Mid-Vibration, Emotional Body.

**Neoregelia's** are a commonly grown Bromeliad that has approx. 100 species and thousands of hybrid cultivars. They are native to Brazil. Neoregelia's have a central water tank that resembles **a human eye** and blush bright colors, symbolizing **perception**, and 'how we color our reality'. Neoregelia's deal with delusion, beliefs based on illusions and other misperceptions of reality. These common issues make them a popular and commonly used flower remedy. Neoregelia's are a perfect addition to any flower blend as they help you to see things from a fresh perspective. Perfect for problem solving!

**Sub-family 3** - Pitcairnioideae, Primitive Grasses, (S)low Vibration, Physical Body/Reality..

**Pitcairnea** are considered to be the least evolved of the Bromeliads, closely resembling their grass ancestors. As a flower remedy, the Pitcairnea's are for 'navigation' and positioning. They indicate the starting position of your thoughts & subsequent actions and highlight what you are predisposed to based on the sum total of your beliefs.

Pitcairnea's help you to 'start on the right foot', gain traction and establish the life your soul / spirit wishes to express in the material world. Pitcairnea remove stumbling blocks, set backs and subtle sabotage patterns and clear the way for progress, settling down & thriving in your life.

**General Properties ( Core Issue )**

**Puya** ( *poy-ah* ) are a genus of approx. 230 species of primitive grasses that are native to mountainous and rocky areas of South America. Their general property is a **deep root system** that provides them with strong, immovable grounding. Symbolically, Puya's tap into the deep, spiritual side of our nature and remind us that we are 'grounded in the spirit'. Puya's dispel thought patterns, belief systems and illusions from the surface mind that are contrary to this basic fact. This has a profound effect in restoring the natural functions & health of the human body.

**Sub-family 1** - Tillandsioideae, Air Plants, High Vibration, Mental Body.

**Tillandsia's** makes up 1/3 of the Bromeliad family and has approx. 700 species - the most of any genus of Bromeliad. Their habitat spans from the southern states of North America all the way to Argentina. Like other plant groups in the 1st sub-family, Tillandsia's focus the mind's eye on the mental body and deal with problem thinking. Passive or 'yin' in nature, Tillandsia's help you to 'see your thoughts'. They raise awareness, highlight anything that is currently active in consciousness and provide a mental overview so you can think clearly. They combine well with Vriesea's, the flaming swords.

# Vriesea

**Sub-family 1** - Tillandsioideae, Air Plants, High Vibration, Mental Body.

**Vriesea's** are known as 'the flaming swords' because their brightly colored flower spike resembles a flame or a lightning bolt. Symbolically, this represents lightning-fast energy or what we call, 'thought'. Vriesea's are powerful remedies and a small dose is all that is required. They primarily clarify thought patterns and clear active thought processes of emotion, emotional references and strips away anything that naturally does not belong. They deal with con(scions)fusion and the problems caused by thinking of too many things at once. Vriesea's pair well with their cousin, the Tillandsia's and Neoregelia's.

# What's Next?

This 'visual catalogue' is a work in progress. While the bulk of the catalogue is complete, there are things missing & will be added over time. The flowers have been listed but none of the professional **box sets** have been listed yet. There will be also a two new product line added by mid-2026 - **laser engraved products** and **Catering Packages for Special Events!** Yes, wooden affirmation cards, wall art and packages for schools, workshops & corporate events will come to the catalogue to compliment the range of 3d printed accessories. So stay tuned for updates.
